

## Due Wednesday 25-April at 9:30am in LSS-248

### ECE Senior Design Engineering Ethics Assignment

Your assignment is to write a one page single spaced report about your thoughts on the ethical issues encountered in the video *Incident at Morales*. I have included some questions to provide a starting point for organizing your thoughts. **Do not submit a list of answers to the questions below! Write as a report...**

1. List the ethical issues you observed in DVD *Incident at Morales*.
2. From your personal perspective, prioritize these ethical issues from most critical to least critical.
3. Discuss the video from three additional perspectives:
  - a) **Fred's Perspective:** Assume you are Fred:
    - i) What specific ethical issues do you (Fred) face?
    - ii) What are some things that you should consider?
    - iii) From whom or where would you seek guidance?
  - b) **Wally's Perspective:** Assume you are Wally:
    - i) What specific ethical issues does Wally face?
    - ii) What do you think Wally's motivation was for having "One Rule"?
    - iii) What do you think about Wally's "One Rule"?
    - iv) What decisions would you change if you were Wally?
  - c) **Responsibility Perspective:** If you were in charge and had the authority and funding to make any changes you wanted to make in company policies:
    - i) What specific steps would you take to improve the company culture?
    - ii) Who would you involve in this process?
    - iii) How and when would you communicate the company policies to:
      - (a) Your employees?
      - (b) Your clients?
      - (c) The public?
